

K-LOVE is something our family listens to on a daily basis. Not only in our car, but in our home. My husband & I both enjoy K-Love, as well as our 3 teens and our 8 year old. Most of the friends we know listen to K-LOVE as well. If K-LOVE were not to be broadcast any longer, we basically would not have a station to listen to. We would therefore, most likely not even have a use for the radio. We would play CD's at home & in our car.

Listening to K-LOVE is encouraging and uplifting. It is a positive experience. It encourages people to treat each other with kindness and respect. Please do not discontinue providing this valuable service to our community. It is a vital part of our daily life.
